Supplementary Figure S1. Year of publication (A), most relevant authors (B), institutional affiliations (C), and publication journal (D) of the top 100 cited manuscripts

Supplementary Figure S2. Collaboration network between countries. The width of the connection (pink) represents the number of documents where ≥ 1 co-author belonged to each country. The intensity of the blue color is proportional to the number of manuscripts from each country among the top 100 cited documents. The countries in grey color do not have any manuscript in the top 100 cited manuscripts

Supplementary Figure S3. Themes explored in the top 100 cited documents
