Supplementary Table SII. Reasons for exclusion for some studies which followed the inclusion criteria

Study Name	Study Title	Reason for exclusion
Al-Hassan 2023	Safety of Catheter Ablation Therapy for Atrial Fibrillation in Cardiac Amyloidosis	Database study (National Inpatient Sample)
Waqas Ullah 2023	Adverse outcomes of atrial fibrillation ablation in heart failure patients with and without cardiac amyloidosis: a	Database Study (National Re-admissions database)

	Nationwide Readmissions Database analysis (2015-2019)	
Nader James 2024	Outcomes of catheter ablation for ventricular arrhythmias in cardiac amyloidosis: a retrospective study	Reports outcomes for Ventricular arrhythmias instead of atrial arrhythmias
